

Murray Fencing Schedule

Caveats

If you're interested in classes but can't attend due to a schedule conflict, please let us know: The age ranges documented below are only guidelines, so it may be possible to enroll a student into another division's class, depending on exact age, height, focus ability, and the target class demographics. It is also possible that additional classes will be added, based on demand.

Note that Level 3 classes are not open to beginners, and that all Youth are evaluated throughout the first month of instruction to determine whether they are able to focus on fencing in a group environment without becoming overly tired or bored.

Modern Fencing

Modern fencing (also called Olympic fencing, sport fencing, and contemporary western fencing) is safe and fun for all ages. Its weapons are the foil, sabre, and épée. Modern fencing is the most widespread sword art in the world.
